RM TIMES

Symbol Of Hope And Miracle

“We will find a way”, “We are here for you”, “We will cure you, don’t panic” “We are with you”, when heard gives us tremendous ability to fight any illness, it feels like we are in safe hands and our life is dear to them and they will not let us go... They are saviours of Mankind, they are worshiped as Gods in Rural parts, they are respected in the Urban society. They are called A physician (American English), medical practitioner (Commonwealth English),

Coronavirus
whistleblower
Late Dr. Li Wenliang

medical doctor, or simply doctor, who practice medicine, they are concerned with promoting, maintaining or restoring health through the study, diagnosis, prognosis and treatment of disease, injury, and other physical and mental impairments.

The life of a Medical doctor has always been excruciating, always on alert what may come next. India with a huge population, The Medical Doctors have challenges fighting with numerous number of Critical illness, Such as:

Heart disease: which is now the leading individual cause of disease burden in India, and stroke is the fifth leading cause. .. Deaths due to cardiovascular diseases.

Diabetes: There are an estimated 72.96 million cases of diabetes in the adult population of India.

Cancer: India had an estimated 1.16 million new cancer cases and around 7.84 lakh cancer deaths in 2018

B-Thalassemia: The overall prevalence of B-thalassemia in India is 3-4% with an estimate that around 10,000-12,000 children are born every year with B-thalassemia major.

whereas the Emergency wards filled with Accident cases every hour as Road accidents have been a major cause for concern across the Indian subcontinent. In 2018 alone, the country reported around 151 thousand fatalities due to road accidents.

Already with so much in hand, The COVID19 CORONAVIRUS has brought new challenges.

Fighting Without Fear

Doctors are not alone in this war, their assistants, nurses, ward boys, cleaning staff, each and everyone who is the clinic or hospital with them round the clock.

This Pandemic is spreading fast and the War against the Virus has been declared, Just a stethoscope and a doctor jacket won't do, Doctors need an Astronaut like gear to save themselves first from getting infected from this Deadly Virus. Apart from this they have to self-quarantine and should not come in close contact with their beloved families, And even worst for the ones who are away from their homes who themselves have to cook , wash clothes and again resume duty without proper rest ,without proper food... so wonder why they are being worshiped...

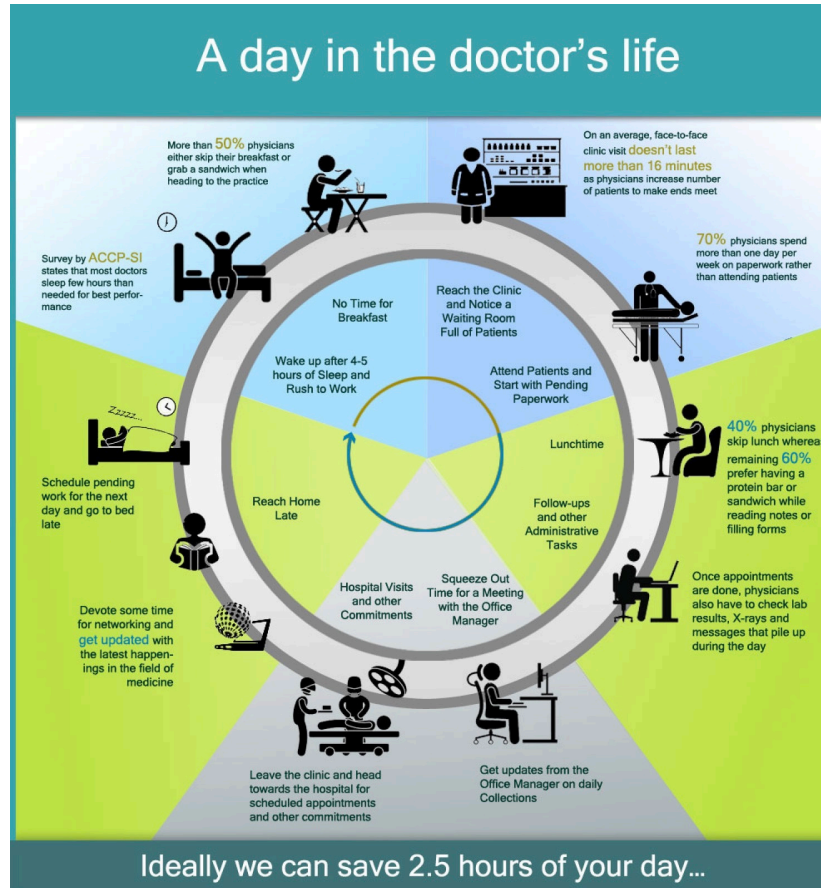

Doctors are not alone in this war, their assistants, nurses, ward boys, cleaning staff, each and everyone who is the clinic or hospital with them round the clock is a Super Hero.

While in the Capital, a house surgeon in a government hospital was asked to vacate the rented flat in Rohini, where he stays with his wife and two children, earlier this week. He has sent his family to their home town in Lucknow.

"The locals called me names like 'Coronavirus', 'dirty', 'dangerous', 'bomb' and 'killer'," said the doctor. "As if working in a stressful situation was not enough. And now this harassment has started. However, after police intervention, the landlord has stopped, but I am afraid that he won't renew my rent agreement - which is expiring in April," he said.

Our doctors guide us to Eat a healthy diet, Exercise daily, Get enough sleep, Maintain a Timetable for a healthy lifestyle, while the survey shows that Doctors can't maintain this regime due to their work schedule which is the keep you up and running

This is a #WORK FROM HOME INITIATIVE# and we will be glad to hear from you, we are open to suggestions & will be happy to write about Organization or person who is making a mark in these Challenging times.
